Manual drive	yes
Maximum width	4 m
Maximum height	6.02 m
External use	yes
Internal use	no
The ability to change the angle of blades	yes

Types of installation:

Standard construction colours:

● RAL 9006 mat

Blade type A cross-section

Blade type B cross-section

Properties:

- Construction made from extruded aluminium
- Two types of 210 mm width blades: Type A blade is designed for horizontal surfaces (roofing, skylights). Owing to the special shape of the blade when in the closed position, it provides protection from rain. Type B blade is designed for shading horizontal and vertical surfaces (building facades, pergola walls)
- Lightweight aluminium construction for strength and durability
- Rotation range up to 90° from the initial position of blades
- It can be fixed both horizontally and vertically
- Group installation option
- Tilt angle of blades operated by linear motor
- Construction can be painted in any colour from RAL palette (optional)
